SAP Business One | ERP Software for Small Businesses The new SAP Business One Service mobile app gives your service team the power to review and resolve service tickets easily, either on-line or off-line. Quickly check a customer location, scan an item, make speech notes and check KPIs for fast reporting. What is SAP Business One? - Definition from WhatIs.com SAP Business One is an ERP software platform specifically intended for small and medium-sized businesses (SMBs). SAP Business One (also known as SAP B1) was designed with the idea that smaller companies need ERP software to help manage their business, but not the kind of ERP that large and complex organizations need. It has functional modules for finance, customer relationship management (CRM), warehousing and production management, purchasing and procurement, and reporting and analytics. SAP - Official Site Get software and technology solutions from SAP, the leader in business applications. Run simple with the best in cloud, analytics, mobile and IT solutions. Run simple with the best in cloud, analytics, mobile and IT solutions.
